WELCOME  
TO  
UNIMAPLE

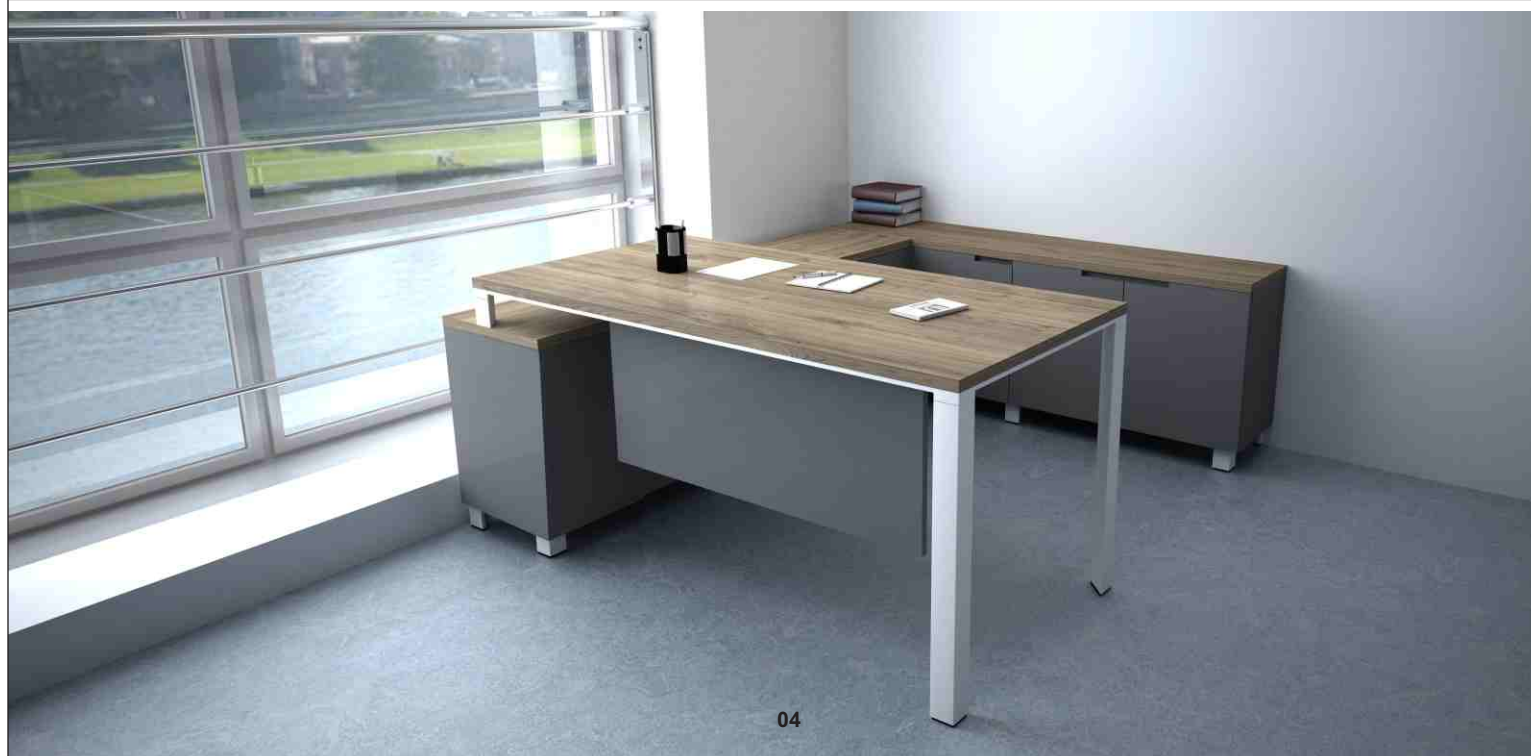

Workstations, according to the staffing of easy and changeable combination form; at the same time the support structure of the inner shrinking middle art realizes the on-line function, making the space use more standard, neat and reasonable.

## TT SERIES

TT Series is a transformable system for all work areas in the offices from single user to team workplaces for desking, meetings, and executive sittings. Everything has a consistent appearance, with optimum functionalism.

Great office environments are shaped by clean furniture design. TT gives you a framework that would support dynamic changes in work place technologies and evolving work practices.

## NOBLE SERIES

Simple life means a large spiritual space in a less physical environment we break through traditional designs concept and emphasize comfort and dignity of furniture.

NOBLE gives you the freedom to explore, ideate and extend the basic configurations into innumerable extended configurations to suit your office space requirements.

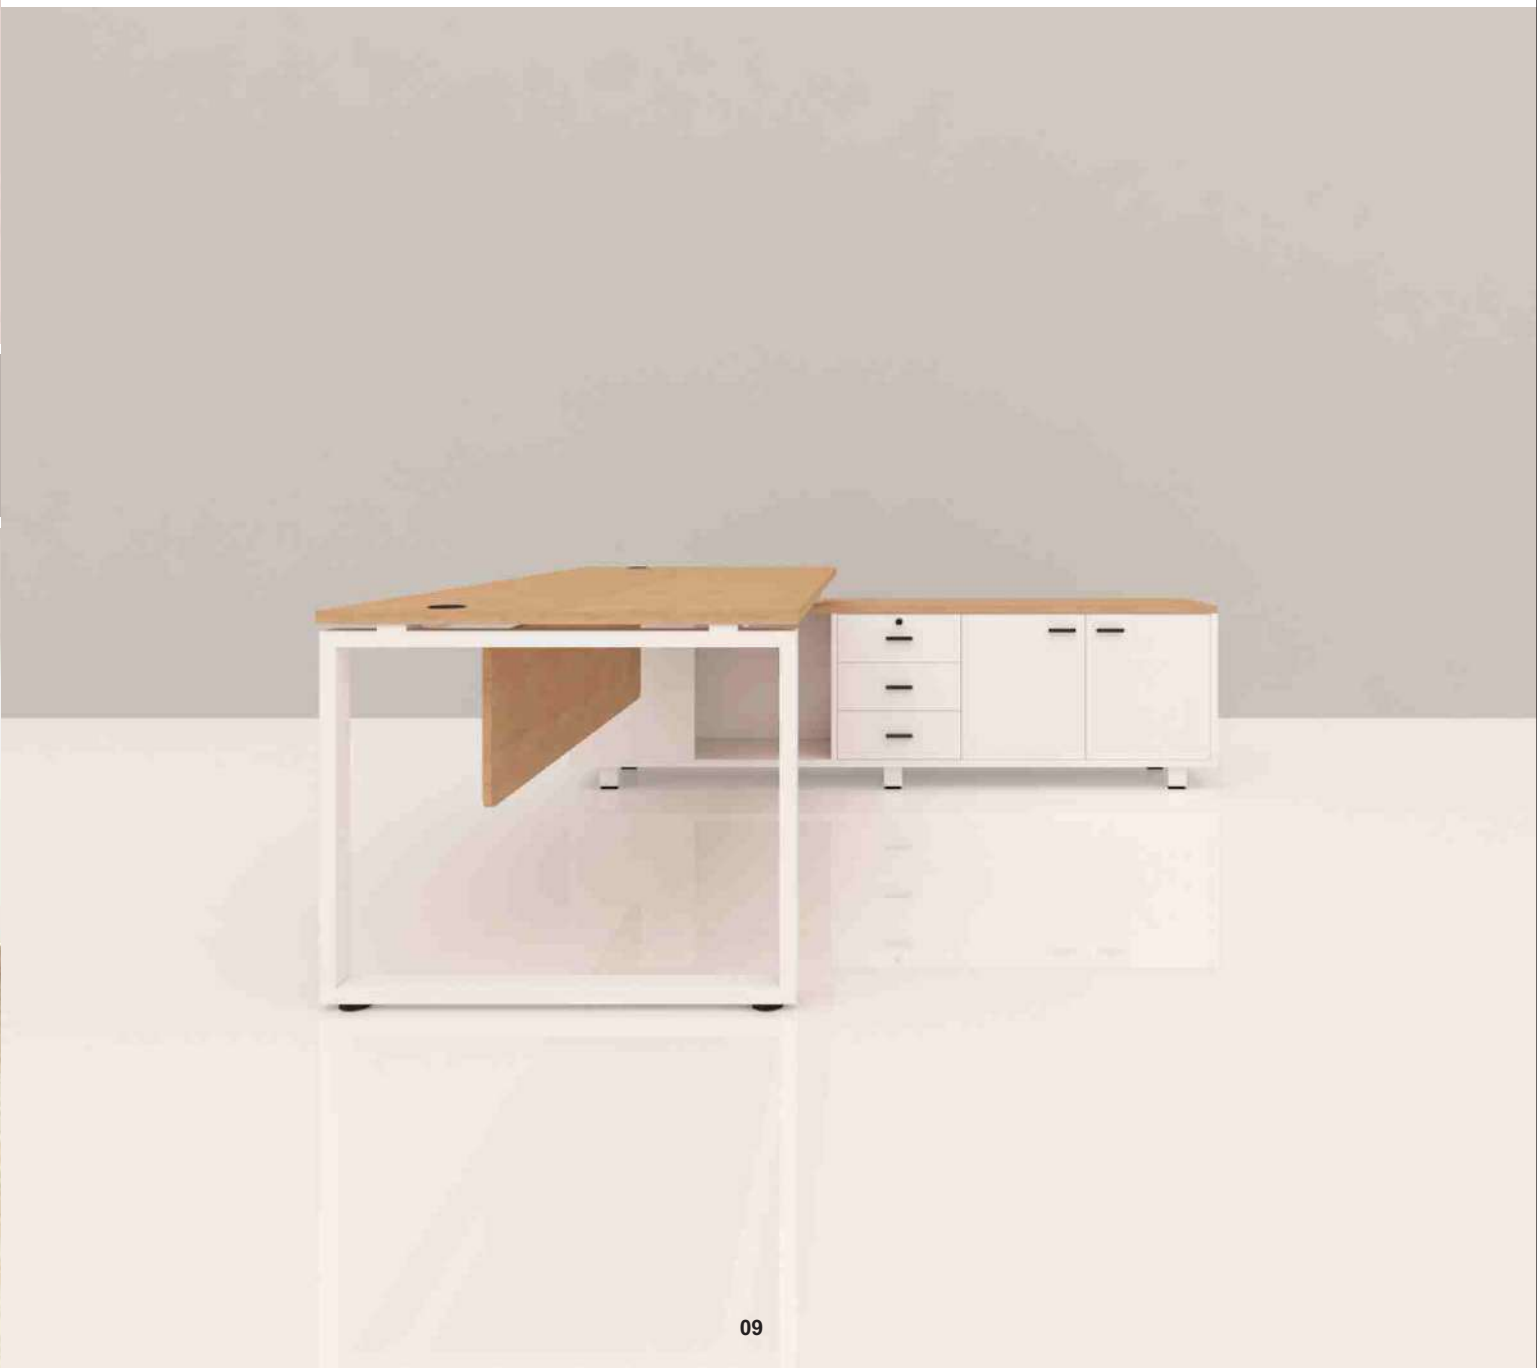

The way we work has changed over the years today, work spaces need to be more collaborative and open, but paradoxically more private and personal. You want your work space to reinforce your organisation's identity and at the same time give you a sense of belonging that makes it your own.

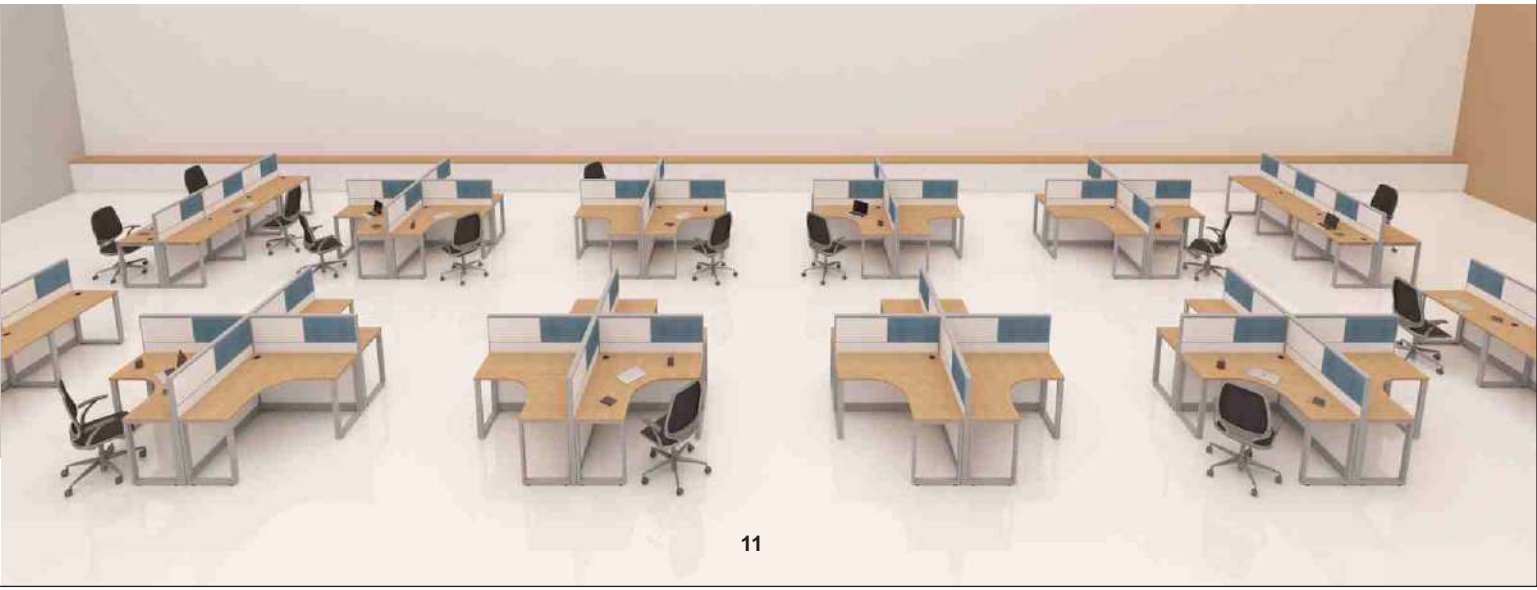

## FIGHTER SERIES

The straight line is the most beautiful line, but its errors are easily highlighted. The aggressive technical challenges of the FIGHTER SERIES challenged the standard. The fighter series shows a stylish decision, perseverance, maturity and mystery.

Life is unclear with proposals, decisions and deals happening quicker than ever between people across countries and continents. Nothing can wait for tomorrow, least of all your space when it comes to setting up your space in the shortest possible time, nothing's faster than NOBLE.

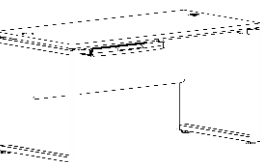

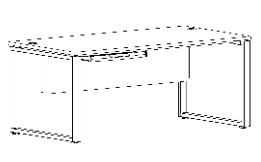

Traditional, rectangular desks can be grouped together or used as individual workstations. This simple design will blend into any office. fighter desking provides the traditional layout suitable for most of the offices. With it's sculptured desk to pin various sizes, coupled with dividing privacy screens and pedestals, this traditional layout can create numerous configurations.

## ERGO SERIES

ergo series - Height Adjustable Desks Make Life Easier. If you are struggling with back pain or having a hard time sitting for prolonged periods at work, then an adjustable standing may be the answer. Sitting for hours on end can be stressful on the spine. It can also lead to feelings of lethargy and fatigue. Standing desks and ergonomic workstations promote increased circulation, mental alertness, and relieve stress on your back and legs. Many people also report greater core strength after working at ergonomic workstations.

Height Adjustable Executive Table  
1300 - 1800 ( W ) X 600 - 800 ( D ) X 750 - 1235 ( H )

Ergo Series desk is a great addition to any office! Along with a stylish new desk, you're also getting a healthy alternative to the traditional stationary desk. The health benefits that come from using an adjustable standing desk include:

Cancer risks are reduced by 30% Heart disease risks are reduced by 46% Increases in energy, productivity and stamina. Decreased back and neck pain. Pain from carpal tunnel issues are reduced. Weight loss. Standing burns more calories than sitting.

Our control panel with 2 programmable memory presets makes it easy to adjust to any height between 730mm and 1235mm.

Height Adjustable Executive Table  
1300 - 1800 ( W ) X 600 - 800 ( D ) X 750 - 1235 ( H )

The new Ergo Series Electric is in a class of its own. It is a better solution for any office. This is one solid piece of office furniture and so well engineered. The pre-settings allow for one touch height adjustments from sitting to standing.

The Ergo Series Electric is easy to put together, easy to use, and easy to fit to your individual workday.

## FLIP-LEG SERIES

Such free, flexible and diversified ways of combination of flip-leg provide a solution to solve the office space utility issue in an easier and flexible way, thus fully satisfying the users need in work.

Air lines, prudent style, wisdom passionate style, all show the large class qualities demonstrated. FLIP LEG SERIES reflect your devised strategies of winning extraordinary bearings thousands of miles away every time, let your passion be even more impressive with the wisdom of the atmosphere.

New design flip - top stand in high grade aluminium alloy body in white finish base leg and white body with cable release table to design.

## MIKE SERIES

Delicate hardware with 80 degrees flexible system and standardized product shape can help you save more storage space and transport room. what's more it can help you to create perfect office environment.

# HIGH-85

full height partition series

The above HIGH-85 conference room can be easily converted into different meeting room without any wall. The swing glass door makes space for your room.

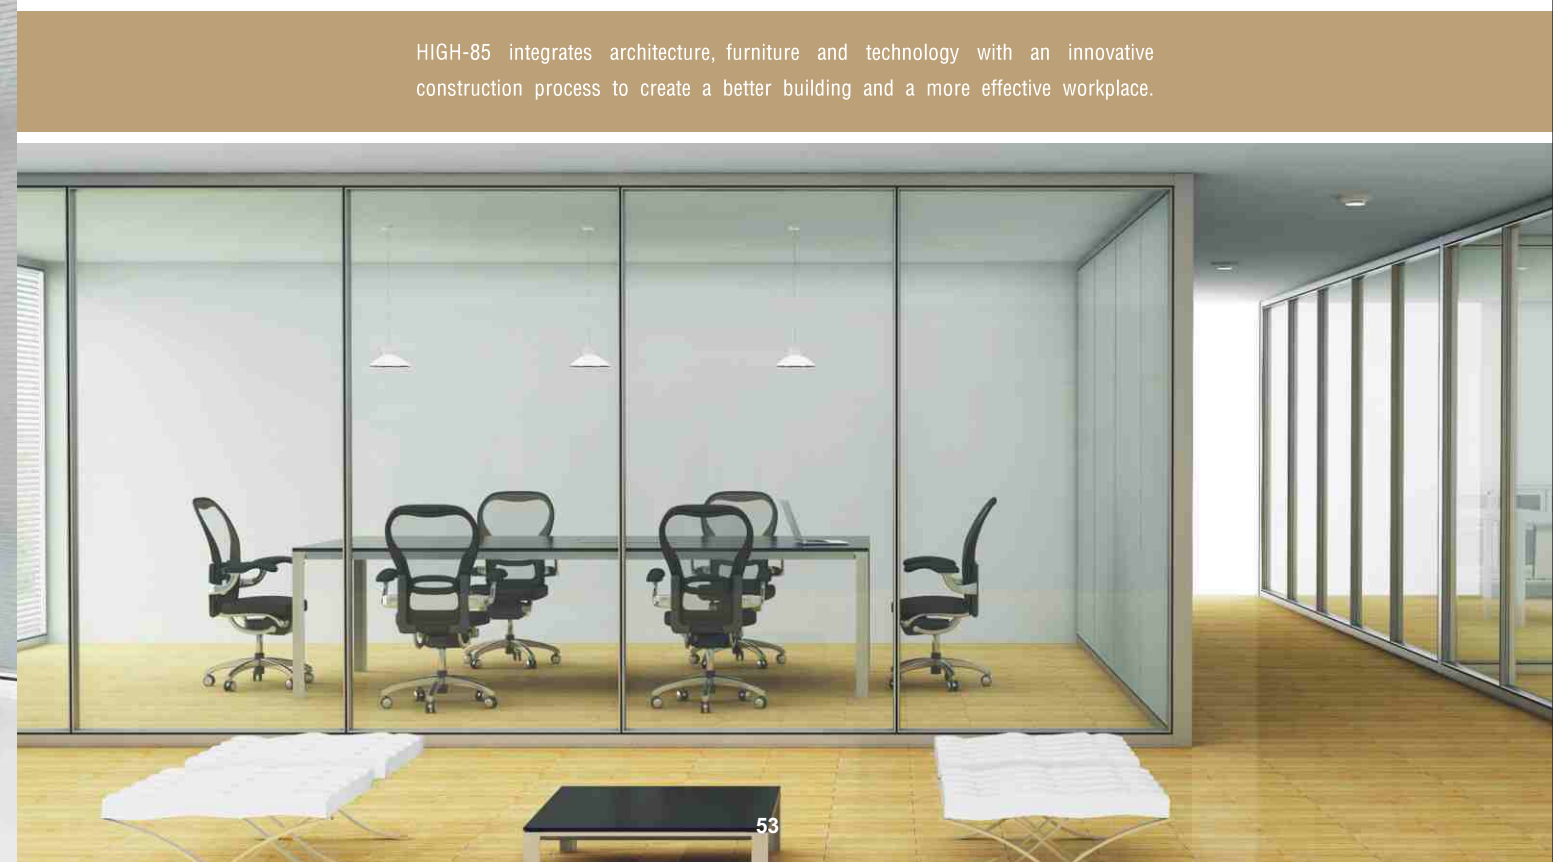

Full glass panels with full glass door optimize space unit, makes all the space of your office more clear and bright.

65

Glass panel with window blinds create visual privacy for meeting room. Adjusting the window blind allows light into team room as you need.

52

HIGH-85 integrates architecture, furniture and technology with an innovative construction process to create a better building and a more effective workplace.

53

Anodized aluminium frame solid construction make the wall safe and secure. Beam profiles and frames are edge or bordered with black feature strip to make it very clean, very spacious, and not cluttered.

UNI - 32  
Have less, be more

A classic-style single glass partition wall with square section profiles for an essential design. A partition that emphasis transparency through it's structural elements with minimize overall dimensions.

Partition with single glass and aluminum frame door on hinge

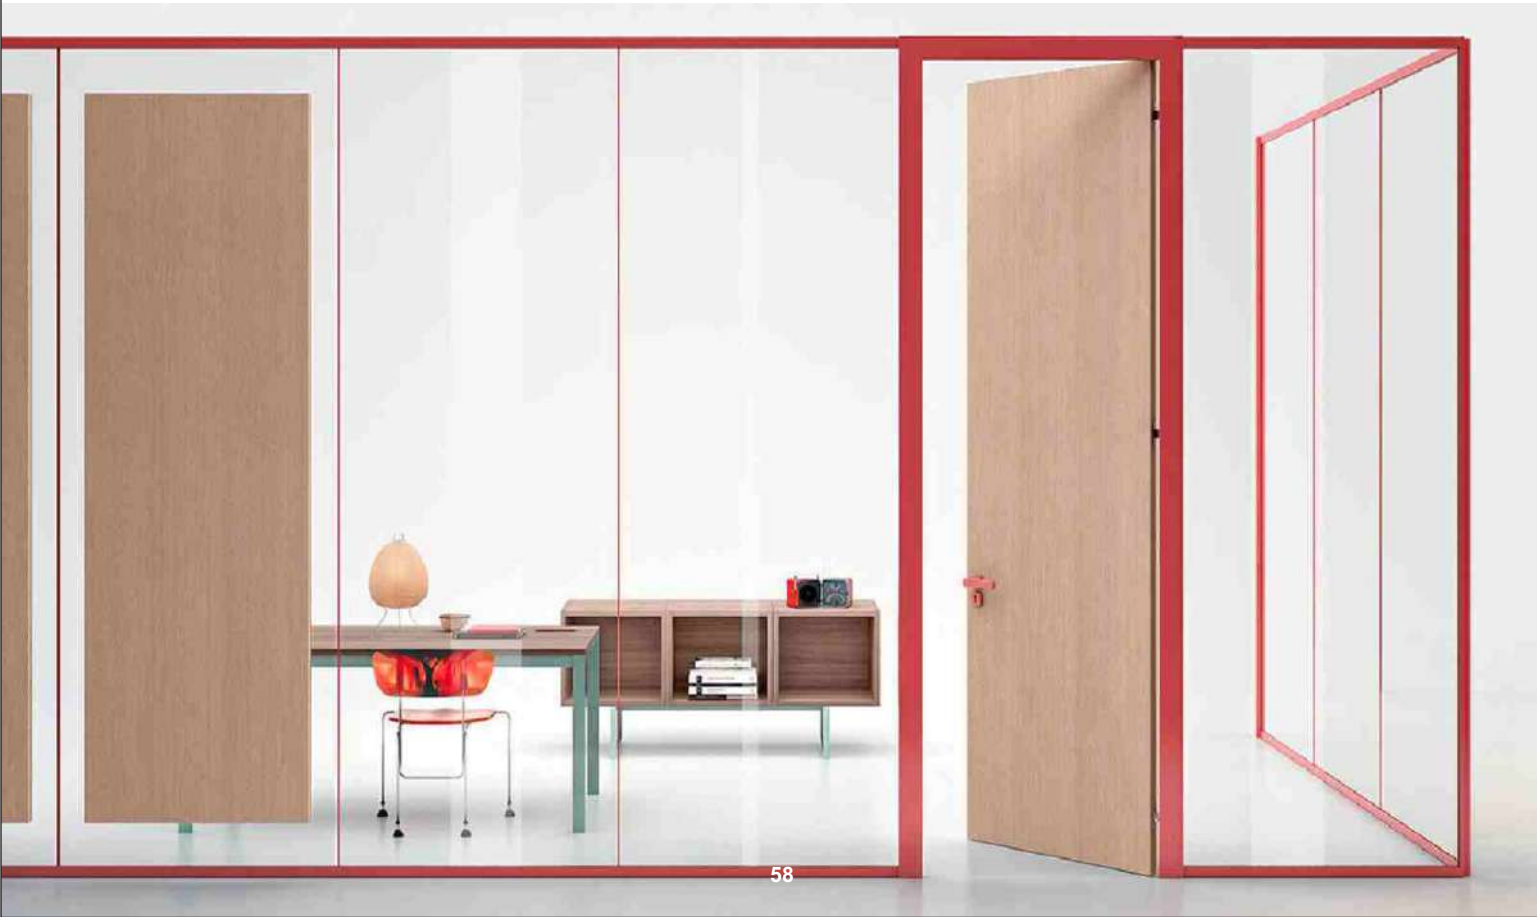

Full height glass panels for continuous vision. It makes the space look brighter and more spacious.

Partition with frameless glass door on hinge ▶

Full height glass panels create transparency among cabins and helps in continuous passage of light.

space within space in an  
open plan office

# UNI - 100

## Simple and faster

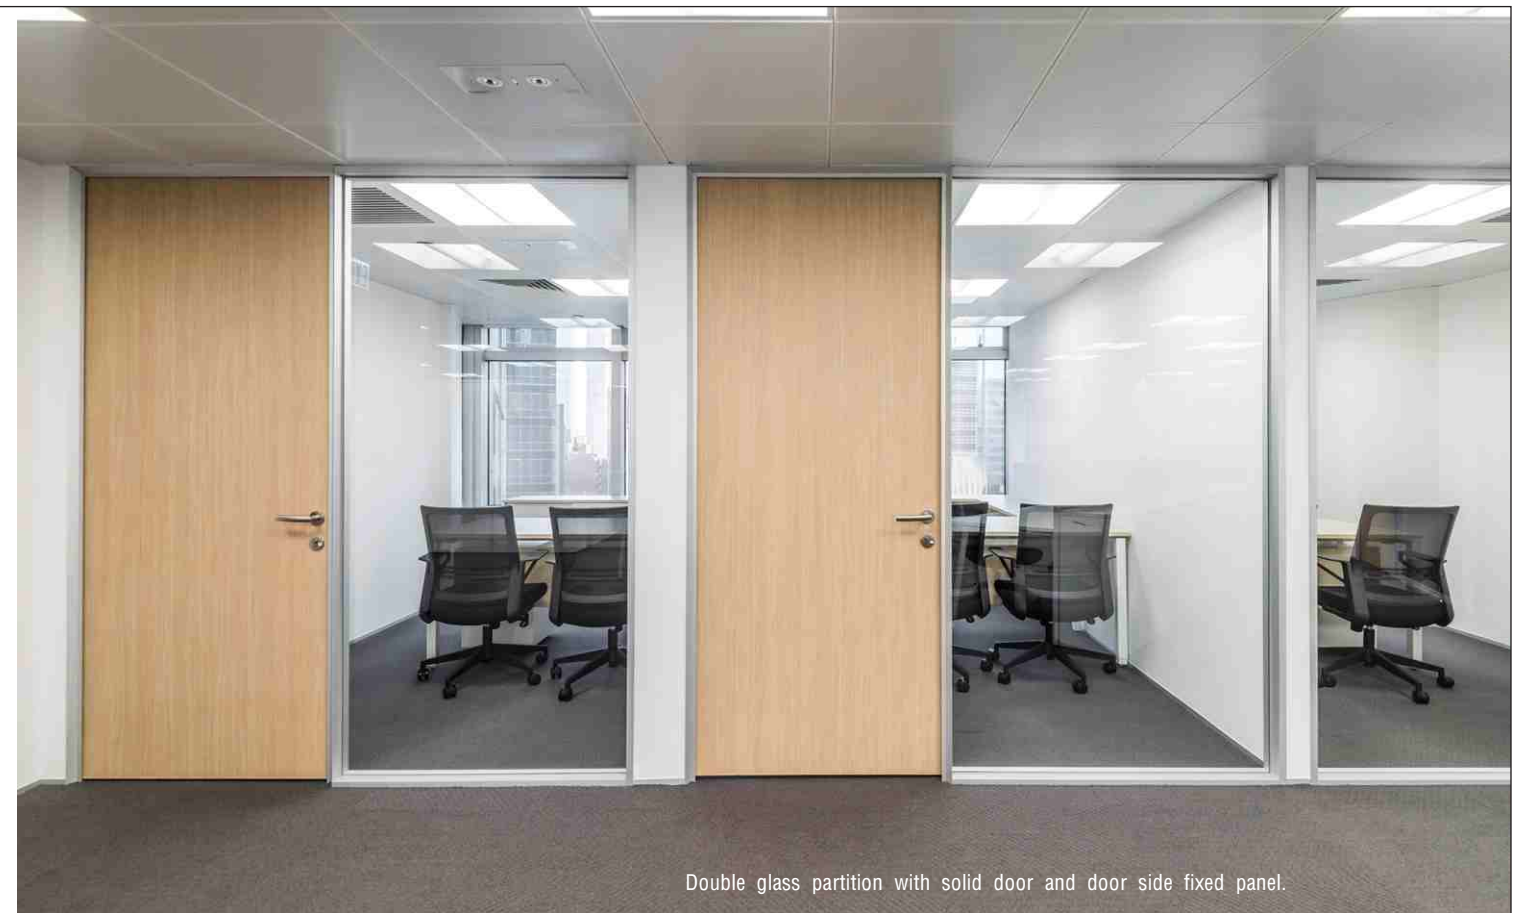

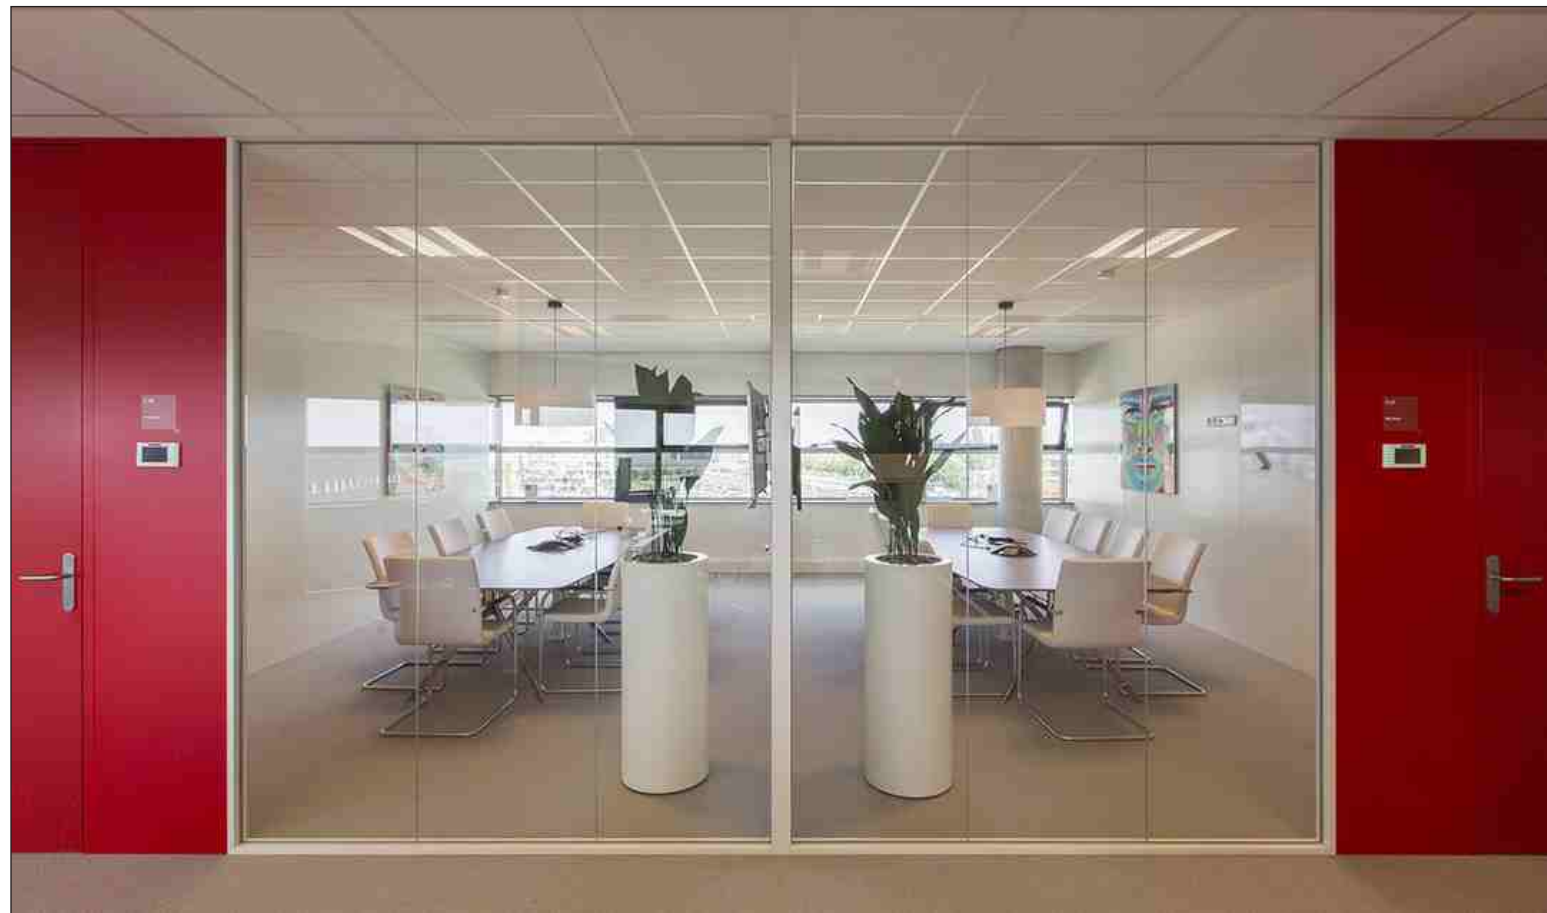

The system is versatile and suitable for any location. The aluminum frame design makes it possible to fix glass in three different ways. The easy fixing details helps in fast assemble of the system.

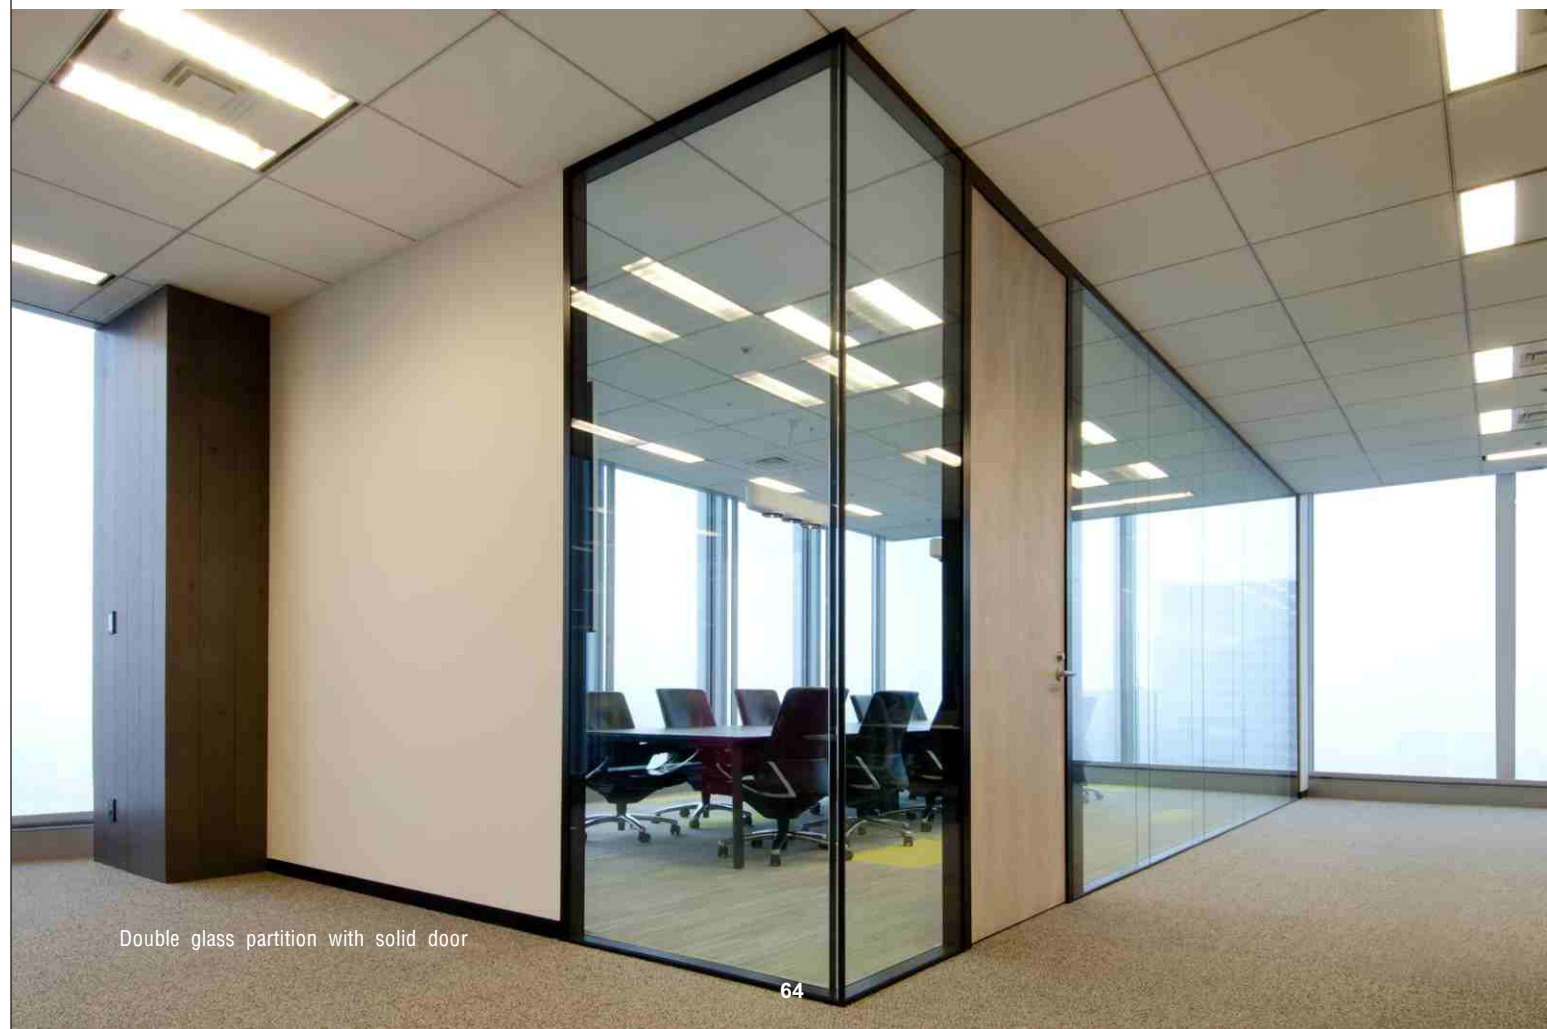

- Advantage:
- # Double glass partition reduces sound transmission from one space to another, owing to increase in accuracy and achieving high level of privacy.
  - # The design of type 2 and 3 is such that roller blinds can be accommodates inside the frame, due to which they dont need separate space for hanging.

Double glass partition

Single glass partition with solid door.

Double glass partition with aluminium frame door & side fixed panels.

Double glass partition with blinds in between. The door is aluminium frame door with door side fixed panel

UNI-80 full height partition series

UNIMAPLE has always been committed to the development and innovation of new product to meet the market demands, to provide you with grand new solution.

Lightness and transparency, angular, delicate colour, simplicity, elegance, perfection, integrate the nature with modern city.

## C-SERIES LOW HEIGHT PARTITION

C-SERISE is combined by 32mm and 60mm two different thickness but similar shape panels.

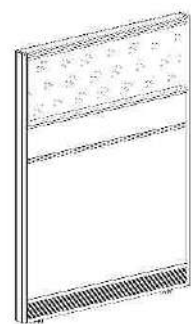

The unique style of modernism and superior, elegant and spirited design is natural and noble. Best meeting the three requirements of customers for comforts, practicality and aesthetics. All this give you a graceful and leisurely environment with low height in C - SERIES partition.

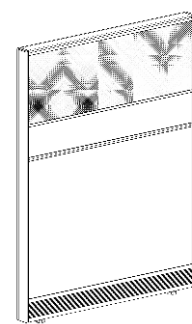

Break through the shackles of different connections between screens. The connection between screens can be connected at any height and width, realising the modular assembly.

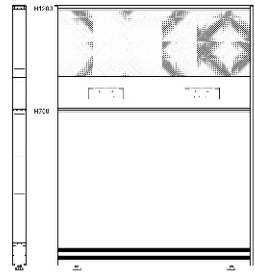

C-SERIES uses different lens and scenes in the film to express different emotions. Using very little border area to reduce visual constraints, at the same time, maximizing the subjective imagination. C-SERIES use different combination to fit different kinds of spaces and realize space reconstruction.
